

Pulaski County Precinct 29

Precinct Boundary Changes (Precinct Order adopted 7/23/2015)

The information provided to you by the Pulaski County Election Commission (hereinafter "PCEC") was compiled from various sources and should not be considered authoritative for engineering, surveying, legal and/or other uses. Information obtained from the use of this map should not be used for property boundary resolution. The maps and data provided by the PCEC are considered "as is" without warranty or any representation of accuracy, fitness or completeness. The maps and associated data we have provided do not represent a survey. The user acknowledges and accepts all inherent limitations of the maps and data, including the fact that the maps and data are dynamic and in a constant state of maintenance, correction and revision. Any use of the maps, images, data or content provided by the PCEC is at the sole risk of the user, and by proceeding, user does hereby agree to indemnify and hold harmless the PCEC and the member agencies from any and all claims, actions, costs or damages of any nature, asserted by the user or by another arising from the use of the data. The PCEC provides no warranties, expressed or implied, concerning the accuracy, completeness or reliability or suitability of the data for any other particular use. Furthermore, the PCEC and its member agencies assume no liability whatsoever associated with the use or misuse of such data. The data may have an inherent number of errors which may include but are not limited to the following types of errors:

- a) Spatial errors - the areas depicted by these maps are approximate, and are not necessarily accurate to surveying or engineering standards. XY coordinates may be in error by several feet or more.
- b) Registration errors - GIS data layers may not overlay each other correctly.
- c) Attribute errors - data may have been incorrectly entered.
- d) Omission errors - GIS data layers may be incomplete.
- e) Completeness errors - Data may be missing or data may be included that does not belong.
- f) Projection distortion - All map projections introduce distortion by representing the irregular shape of the earth's surface on flat maps. The effects feature shapes and map distances.
