

State House District 29

The information provided to you by the Pleasant County Election Commission (PCEC) was compiled from various sources and should not be considered authoritative for engineering, surveying, legal and/or other uses. Information obtained from the use of this map should not be used for property boundary resolution. The maps and data provided by the PCEC are considered "as is" without warranty or any representation of accuracy, timeliness or completeness. The maps and associated data were provided to not represent a survey. The user acknowledges and accepts all inherent limitations of the maps and data, including the fact that the maps and data are dynamic and in a constant state of maintenance, correction and revision. Any use of the maps, images, data or content provided by the PCEC is at the sole risk of the user, and by proceeding, user does hereby agree to indemnify and hold harmless the PCEC and the member agencies from any and all claims, actions, costs or damages of any nature, asserted by the user or by another arising from the use of the data. The PCEC provides no warranties, expressed or implied, concerning the accuracy, completeness or reliability of this data for any other particular use. Furthermore, the PCEC and its member agencies assume no liability whatsoever associated with the use or misuse of such data. The PCEC may have a limited liability for errors in any map, data or content provided but not limited to the following types of errors: a) Spatial errors - The information is not geographically accurate; b) Registration errors - GIS data layers may not overlay each other correctly; c) Attribution errors - Database information may be incorrect; d) Currency errors - GIS data layers, databases and documents may not be the most current available or may not depict the specified time. All data is subject to constant change. Data input lags real-world changes by varying periods of time. e) Projection errors - GIS data layers, databases and documents may not be included that does not belong; f) Projection distortion - All map projections include distortion by representing the irregular shape of the earth's surface on flat maps. This affects feature shapes and map distances.
