The information provided by you to the Pulaski County Election Commission (hereafter "PCEC") was compiled from various sources and should not be considered authoritative for engineering, surveying, legal and/or other uses. Information obtained from the use of this map should not be used for property boundary resolution. The maps and data provided by the PCEC are considered "as is" without warranty or any representation of accuracy, completeness or reliability. The user acknowledges and accepts all inherent limitations of the maps and data, including the fact that the maps and data are dynamic and in a constant state of maintenance, correction and revision. Any use of the maps, images, data or content provided by the PCEC is at the sole risk of the user, and, by proceeding, user does hereby agree to indemnify and hold harmless the PCEC and its member agencies from any and all claims, actions, costs or damages of any nature, asserted by the user or by another arising from the use of the data. The data may have an inherent number of errors which may include, but are not limited to the following types of errors:

- a) Spatial errors - The areas depicted by these maps are approximate, and are not necessarily accurate to surveying or engineering standards. XY coordinates may be in error by several feet or more.
- b) Registration errors - GIS data layers may not perfectly align with each other.
- c) Attribute errors - Database information may be incorrect.
- d) Completeness errors - Data may be missing or data may not be the most current available or may not depict the specified time. All data is subject to constant change. Data input lags real-world changes by varying periods of time.
- e) Projection distortion - All map projections introduce distortion by representing the irregular shape of the earth's surface on flat maps. This affects feature shapes and map distances.
